

DIPLOMA OF PRIMARY SCHOOL TEACHING

If you are planning a prosperous career as a teaching professional then a grand opportunity is waiting for you. Cambridge Technical College offers a program on Diploma in Education for the future teaching professionals, which features educational theory and practice in order to provide a better understanding of the learning needs and demands of the learners in contemporary time. It puts emphasis on principles of education, educational psychology, instructional strategies, assessment and evaluation, educational administration and supervision with a special focus on the age group of 5-12 years to produce reflective educators. The Diploma program will help you gain an insight of teaching components of a pre-primary classroom and better understanding of the learning process for creating a proper learning environment. The program proves to be extremely helpful for the aspiring and working teachers to strengthen skills, which will guide you to become an effective educator
