DIPLOMA OF ENGLISH LANGUAGE

English is the language of the world; it brings people from different countries, speaking different languages to a common platform. Do you know more than 1.5 billion people conduct their daily communication in English? Whether you are preparing for an interview, writing an important term paper, planning to give a presentation or aiming to study abroad, a good knowledge of English is essential! If you think you are falling short of reaching your dream career due to a lack of basic English knowledge, then pursuing a Diploma in English can be your claim to fame. Let us go through the blog and know more about it.

Overview:

A diploma in English focuses on the fundamentals of English grammar as well as effective writing and speaking skills. Improving English proficiency is a good thing for people of all ages. It will not only develop your personality but also enhance your professional growth. The common duration of the course is around 12-18 months in which topics like Professional Writing Skills, Functional Grammar, Language through Literature, Personality Development and Business Communication are covered. Along with these topics, the program also includes project work and open discussions to impart a better understanding of the language. Here are some common things that you can learn in a Diploma in English:

- Effective communication skills
- Speak with greater fluency, accuracy, and confidence
- Expansion of vocabulary with the completion of meaningful tasks, class activities and group discussions
- Learn faster and better with task-based activities
- Regular speaking and listening sessions with the instructor or teacher
